BY JOINING NUTMEG, YOU WILL

- Be in charge of your union decision-making. Nobody from a state, national, or international organization will tell you how to run your union
- Be in charge of your treasury. No other state or international organization will dip into your pockets to pay for its conventions, politicians, or mismanaged locals
- A fair-dues structure. You decide where your money goes and how it gets spent.
- **Always** have a lawyer by your side. Never again worry about whether or not your representative is prepared or able to understand the legal issues that you are facing.
- Go to the bargaining table with professional lawyers with years of negotiating expertise.
- Never worry about unexpected costs. Lower overhead means our dues go where they are most effective: to pay for negotiations, legal services, and representation of member interests
